# CERTIFICATES

## TRADITION

For 35 years, we have upheld the textile tradition in the foothills of the Giant Mountains, nestled within a protected nature reserve. From the very first spun thread to the final stitch, we honor the craftsmanship and experience passed down through generations. Today, we proudly deliver our GRUND bathroom mats to over 20 countries worldwide, celebrating our Czech origin and the story behind each product.

**OUR KEY  
PILLARS**

## QUALITY

We carefully monitor the entire production process - from yarn selection to the finished product. That's why we offer a 5-year warranty on the GRUND collection. Our individual approach to every material allows us to respond flexibly and precisely to the needs of our customers and business partners.

## INNOVATION

Innovation is the foundation of our progress. We continuously explore new materials - such as recycled yarns - and expand our technological capabilities. We combine modern automation with hand-sewn craftsmanship, enabling us to create even the most demanding designs, including custom-made collections.

## SUSTAINABILITY

Sustainability is a core part of our strategy. Over 98% of our products are made in Europe, reducing transport distances and minimizing CO<sub>2</sub> emissions. We work with renewable resources and are certified with MADE IN GREEN by OEKO-TEX® - a guarantee of both ecological and ethical product origin.

THINK  
GREEN

## ECOLOGY IS IN OUR DNA

Sustainability is a core part of our company philosophy – not out of obligation, but out of conviction. Our production site is located in the heart of the Giant Mountains foothills, in direct connection with nature. Respect for the landscape and the Grund family's personal environmental responsibility are reflected in every decision we make.

# SUSTAINABILITY

## MADE IN GREEN CERTIFICATION

In 2024, we received the MADE IN GREEN by OEKO-TEX® certification, confirming that our products meet the highest environmental and social standards – from safe materials to fair working conditions.

## LOCAL PRODUCTION & ECO-FRIENDLY TECHNOLOGIES

Our entire production is concentrated at one site in the Czech Republic. This allows for complete control, short delivery routes, and a significant reduction in emissions. We rely on renewable energy, use recycled yarns, and implement resource-efficient technologies – such as energy-

saving TPE coatings and yarn-based coloring without polluting water or soil.

## PROVEN RESULTS

An independent study in 2021 confirmed that GRUND bathroom mats have significantly lower environmental impact compared to similar products from other parts of the world – mainly thanks to local production, renewable energy, and the long lifespan of our products.

## SUSTAINABILITY IN FACTS

- Production takes place exclusively in the Czech Republic
- 98% of products come from Europe – less transport, lower CO<sub>2</sub> emissions
- Colors are created through yarn blending – no burden on the water system
- We use durable fibers for a longer product lifespan
- Use of renewable energy sources, such as solar power
- Energy-efficient technologies (e.g. TPE coatings)
- Introduction of recycled yarns
- Certified with **MADE IN GREEN by OEKO-TEX®**
